REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Referring to claims 1-5, the prior art does not teach or fairly suggest wherein said control device maps more physical devices to a logical device with a high priority than that with a low priority based on said first priority information received from said service terminal and wherein in the event of a failure, said control device performs control such that data held in said cache memory and belonging to each logical device is saved to the physical devices mapped to each said logical device, in the scope and context of claim 1.

Referring to claims 6-9, the prior art does not teach or fairly suggest a second step of mapping more of said physical devices to a logical device with a high priority than that with a low priority based on said first priority information received at said first step, and in the event of a failure, saving data held in said cache memory and belonging to each logical device to the physical devices mapped to each said logical device, in the scope and context of claim 6.

Referring to claims 10, 11, a second step of mapping more of said physical devices to a logical device with a high priority than that with a low priority based on said first priority information received at said first step, and in the event of a failure, saving data held in said at least one cache memory and belonging to each said logical device to the physical devices mapped to each said logical device, in the scope and context of claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
